

March 2022

Dear Shaoyang Li

Congratulations – International Accreditation Top Project Award

The Royal Society of Biology takes great pleasure in awarding you the International Accreditation Top Project Award at the Hong Kong Polytechnic University. Congratulations on gaining such a high level of achievement in your bioscience project:

Biofilm matrix masks bacterial quorum-sensing signals from predator detection

The Royal Society of Biology is a single unified voice for biology: advising Government and influencing policy; advancing education and professional development; supporting our members, and engaging and encouraging public interest in the life sciences. As a graduate from an Accredited degree, you will be eligible for one year of free membership to the Royal Society of Biology. Please email myself or use the link provided by your university to claim this benefit.

In recognition of your success, the Royal Society of Biology would like to invite you to the Degree Accreditation Awards Ceremony this year. Previously the ceremony has been held at the Houses of Parliament, in Westminster. This event provides a unique opportunity to meet and network with top bioscience employers and academics. Further details of the date and venue shall be sent out in due course, so please do forward your contact details to accreditation@rsb.org.uk or confirm them directly to me so that I can contact you closer to the time, if you wish to attend.

As a winner of the award your name may be published on the Society's website and may be included in other Society publications – please contact me if you would prefer for your name not to be included in any public material.

If you have any questions, please do not hesitate to contact me using the details below and once again, congratulations on your success.

Yours sincerely

Tessa Gibson
